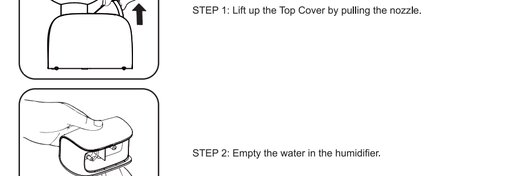
IMPORTANT SAFETY INSTRUCTIONS

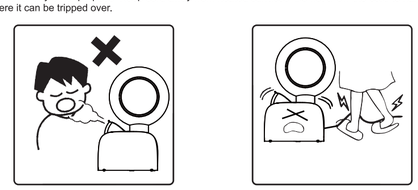
READ AND SAVE THESE SAFETY INSTRUCTIONS BEFORE USING THIS HUMIDIFIER

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

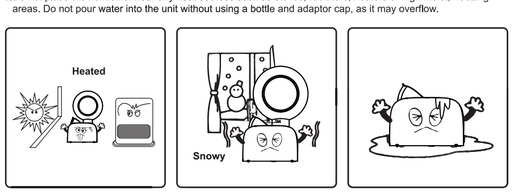
1. Always place this humidifier on a firm, flat, dry and level surface. This humidifier may not work properly on an uneven, non-heat-resistant surface, such as carpet, bed or sofa. Do not place near the TV, furniture, mobile phone or other electronics as the mist may cause damages.



2. Place this humidifier in an area where it is not accessible to children. Should only be used as a humidifier, not intended for any other purpose. Keep cord away from heated surfaces. Do not allow the cord to hang or route where it can be tripped over.



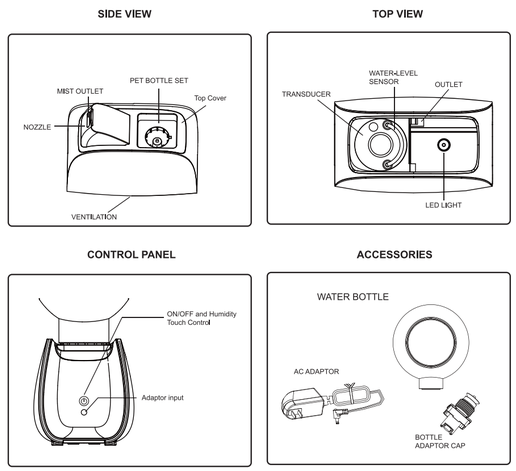
3. Do not place the humidifier near any heat sources such as stoves, radiators, heaters or high moist, freezing areas. Do not pour water into the unit without using a bottle and adaptor cap, as it may overflow.



〈1〉

4. Before using the humidifier, check the power cord for any signs of damage. If the cord is damaged, **DO NOT USE** and return the humidifier to the manufacturer under the warranty agreement for repair.
5. A loose fit between the AC outlet (receptacle) and plug may cause overheating and a distortion of the plug. Contact a qualified electrician to replace loose or worn outlet.
6. The humidifier should always be unplugged and emptied when not in operation, while being serviced or cleaned.
7. Never tilt or attempt to move the humidifier while it is operating or filled with water. **Turn unit OFF** and **UNPLUG** the humidifier before moving.
8. This humidifier requires regular cleaning.
9. Turn the humidifier **OFF** if the relative humidity exceeds 60%, or if you notice moisture on the inside of your windows. For proper humidity reading use a hygrometer, which is available in many hardware and department stores.
10. **DO NOT** block the mist nozzle. This will damage the humidifier.

PART IDENTIFICATION



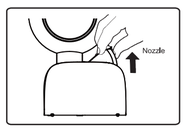
〈2〉

SETUP

•Select a firm, level, and flat location - at least six inches (15 cm) from any wall or furniture for proper airflow.
Place the humidifier on a water-resistant surface, as water can damage furniture and some flooring.

OPERATION

CAUTION: DO NOT PLUG THE HUMIDIFIER WITH WET HANDS AS AN ELECTRICAL SHOCK COULD OCCUR.



• Position the nozzle on the top cover.

• Fill the empty water bottle (380ml) with clean or distilled water.
• Do not use Hot Water, doing so may damage the humidifier.

NOTE: TO PROLONG THE LIFE OF THIS HUMIDIFIER, WE RECOMMEND USING DISTILLED WATER. NEVER ADD FRAGRANCES OR OIL IN THE WATER, AS IT WILL CAUSE THE MACHINE TO MALFUNCTION AND VOID YOUR WARRANTY.

• Fit the Adaptor Cap to the water bottle.
Please make sure the Adaptor Cap is securely inserted.

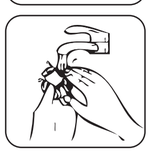
〈3〉

MAINTANENCE

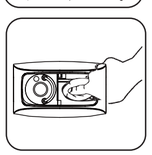
It is recommended to clean the humidifier weekly.

STEP 1: Lift up the Top Cover by pulling the nozzle.

STEP 2: Empty the water in the humidifier.



STEP 3: Clean the Adaptor Cap under running water.



STEP 4: Clean the inside of the unit with a soft cloth.

NOTE: THE USE OF OTHER WATER TREATMENT PRODUCTS, CHEMICALS, SOAPS, DETERGENTS OR ABRASIVE CLEANSERS NOT RECOMMENDED IN THE MANUAL MAY CAUSE DAMAGE TO THE HUMIDIFIER OR AFFECT PERFORMANCE.
NOTE: How often you should perform this maintenance depends upon the hardness of the water you are using and how quickly mineral deposits form on the interior surfaces of the humidifier.
DO NOT CLEAN this humidifier under running water or submerge in water or any liquid. Doing so may cause damage or personal injury.

〈5〉

TROUBLESHOOTING

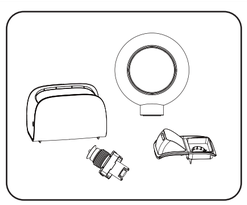
A. No power to the unit when turned on.
- **Check if the DC adaptor is securely plugged to the unit and the wall outlet.**
- **Check the electrical outlet with a working appliance.**

B. Power to unit, but not producing mist.
- **Turn unit OFF, Remove bottle and re-insert, making sure the Adaptor Cap is properly fitted.**

C. Mist is stuck inside the nozzle.
- **Sometimes water droplets may block the Mist Outlet. Turn unit OFF, rremove the top cover and dry the outlet area of nozzle.**

D. Humidifier is overflowing.
- **Turn unit OFF, Remove bottle and check the Adaptor Cap is properly fitted on the bottle.**
- **When placing the bottle onto the unit, do not "shake the" bottle to force water into the unit.**
- **Once the bottle is properly fitted onto the unit, do not move the bottle – this will cause more water to be released into the unit.**

END-OF-THE-SEASON CARE AND STORAGE



- Follow **WEEKLY CLEANING** instructions when the humidifier will not be used for at least a week or more, or at the end of the season.
- Dry the humidifier and all accessories completely before storing. **DO NOT** store with water or any moisture inside the humidifier.
- Pack the unit in its original carton and store in a cool, dry location.
- Before next use, remember to clean the humidifier.

TECHNICAL SPECIFICATIONS

Model	SU-1054
Unit Dimension (w/o water bottle)	4.53 " x 2.87 " x 3"
Unit Weight (w/o water bottle)	0.53 lbs
Water Bottle Capacity	380 ml
Mist Output	Approx.120 c.c./hr
Input Voltage	100~240V AC, 50/60Hz
Power Consumption	12W

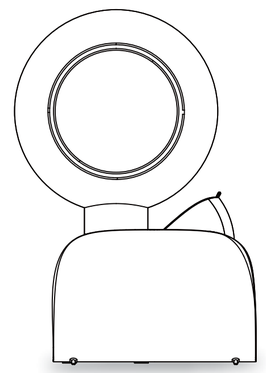
PERSONAL HUMIDIFIER OWNER'S MANUAL

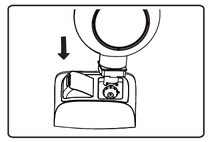
Model SU- 1054



NOTE: AFTER READING THIS MANUAL, IF YOU HAVE ANY QUESTIONS OR COMMENTS ON YOUR SUNPENTOWN PERSONAL HUMIDIFIER, CALL 626-336-2299
NOTE: TO PROLONG THE LIFE OF THIS HUMIDIFIER, THE BEST CHOICE IS TO FILL WITH DISTILLED WATER. FRAGRANCES OR OIL ADDED IN THE WATER WILL CAUSE THE MACHINE TO MALFUNCTION. FRAGRANCES OR OIL ADDED IN THE WATER WILL VOID THE WARRANTY.

(THIS UNIT CAN BE USED IN FOREIGN COUNTRY WITH USE OF COMPATIBLE PLUG ADAPTOR)

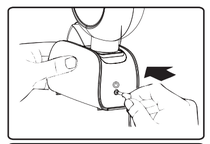
SUNPENTOWN INTERNATIONAL INC.



• Align the Adaptor Cap to the water bottle set on the top cover.

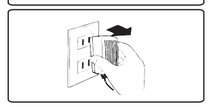
NOTE: Once the bottle has been positioned, do not attempt to move the humidifier. If it has to be moved, turn unit OFF and unplug before moving the unit.

CAUTION: DO NOT POUR WATER TO THE UNIT WITHOUT THE USE OF BOTTLE AND ADAPTOR CAP. DOING SO MAY DAMAGE THE HUMIDIFIER OR CAUSE PERSONAL INJURY.



• Plug the DC Adaptor to the humidifier first then connect plug to a 120V outlet.

• Touch the Power Button to turn ON/OFF the unit and adjust the humidity output. After connecting the plug to a wall outlet, touch the Power Button to turn on unit, unit starts running at Low speed and Purple LED illuminated. Touch the button again, unit turns into High speed and Blue LED illuminated. Touch the button again to turn off unit.



• To disconnect the humidifier, first turn the unit off and then grip the plug and remove from wall outlet. Never pull the plug by the cord.

• Add water once the Red LED illuminated.
